PRINT & APPLY

## Ventus makes marking easy

Ventus Print & Apply System is designed and developed by Meckelborg Oy in Finland. Due to the capability of real-time labelling the information as well as the product can easily be changed. Different attachment alternatives enable Ventus to label any product regardless of the industry your company is operating. Its modular structure gives an opportunity to customize your company a unique labelling solution with minimal costs. In addition, its small and compact size makes it easy to install the system in different applications. Ventus fully combines the cost-effective price with reliability, endurance, flexibility and user-friendliness. Ventus even speaks your own language as well as standard English.

## Ventus 610 A Pallet

- Small and compact
- Easy to adapt
- Reliable
- Easy-to-use user interface
- 15 memory locations for product settings
- Settings can be easily modified
- Label printer can be chosen to meet your needs
- Option to network and WLAN
- Metal frame

# Ventus 610 A Pallet

Ventus 610 A Pallet is designed especially for pallet labelling. A turning application head enables labelling to two sides of the pallet. The basis for the design lies behind the standard issued for pallet labelling. However, the position of the application head can also be adjusted to apply the labels either horizontally or vertically. Ventus 610 A Pallet requires only one square meter space to operate. The labelling speed of the system is six pallets per minute, when applying labels to both sides of the pallet.

Dependability of Ventus Print & Apply machines is guaranteed by in-house manufacturing, service and spare parts. We have delivered Ventus Print & Apply solutions to many different industries i.e. food, chemistry, cosmetics, building materials and wood industries.

## Technical specifications

Label size:	A5 (148 x 210 mm)
Speed:	6 pallets / minute (labels to both sides of the pallet) 15 pallets / minute (label to one side of the pallet)
Compressed air:	~ 6 bars
Dimensions:	Height 600 mm Width 500 mm Depth 400 mm
Labelling accuracy:	+/- 5 mm
